

SWE90UF MINI-EXCAVATOR

- ◆ Total weight:8.75\8.9t
- ◆ Engine power:46.2kW/2200rpm
 - Bucket capacity: 0.26m³

- ◆ It is a multi-functional tail-less construction equipment with excellent appearance and flexible deflection and tail-less construction performance, improving construction efficiency in small spaces.
- ◆ The new comfortable cabin is upgraded with intelligent control devices, one-key start function, and 7-inch touch screen, and the equipment information could be known at any time.
- Electric proportional handle is provided to control auxiliary tools more accurately. The flow of auxiliary tools could be adjusted for more applications with better coordinated operations.
- The covered parts could be opened widely and the platform edges could be removed to facilitate internal inspection and maintenance.
- ◆ The structural parts are stable and reliable. The driving cabin has passed TOPS and ROPS certification. Moving arms and rod oil cylinder are equipped with explosion-proof valves to ensure the durability of the whole machine.
